PRODUCT DESCRIPTION

8-strips 0,1ml Low Profile PCR tubes + attached optically clear flat caps x1200

PACKAGING

120 strips / pack *** 10 packs / case

SPECIFICATIONS

- ** Robust interwell linkages make the strips rigid and easy to handle, preventing spills.
- ** Angularly attached caps prevent lids and hinges from interfering with each other, allowing for easier operation in an SBS format rack.
- ** Unique two-material white tubes with optically-clear flat caps create the perfect environment for consistent, reliable qPCR performance. White wells offer enhanced fluorescence reflection and optically-clear caps ensure that the fluorescence signal is uninhibited.
